

SOLOMON ISLANDS DEMOCRATIC COALITION FOR CHANGE GOVERNMENT

POLICY PRIORITIES, STRATEGIC ACTIONS AND OUTCOMES

Office of the Prime Minister and Cabinet

FOREWORD

The Solomon Islands Democratic Coalition for Change (SIDCC) Government upon assuming office on the 15th November 2017 made strong emphasis on integrity in leadership and Governance and will pursue rigorously re-establishing fiscal stability and micro-fiscal discipline in its one year in office. Recognising that there are real practical and philosophical challenges ahead in the implementation of its policies and attaining its policy objectives. The government will take a pragmatic approach in pursuing the implementation of its policies as translated herein through effective and efficient implementation of schedule activities identified under the Fundamental and Sectorial Reform priority Programmes.

Assessing the development trend of the nation since obtaining political independent, it is obvious that the depressed socioeconomic development status of the country we see today is attributed to amongst other things the unethical, unaccountable, unrespectable and the style of leadership this country have had for a long time.

Learning from these experiences, facing what currently transpired and looking ahead into the future, the SIDCC Government objectively for this one year in office aims to redirect its attention and the financial resources of the country to meaningfully achieve outcomes envisage in this Policy Translation and Strategy Document. This means in the next few months as a responsible Government the SIDCCG will consolidate its efforts to implement these key activities in order to improve the welfare, wellbeing and livelihood of all persons in the country.

This Policy Translation Strategy provides the detail activities that will be undertaken and the expected outcomes that would be achieve from the SIDCC Government Policy Statement. It is a living and working document that will be referred to or amended from time to time as well as monitored on a regular basis by the Policy Implementation, Monitoring and Evaluation Unit (PIMEU) based in the Office of the Prime Minister and Cabinet (OPMC) with support from key government agencies including MDPAC, MoFT and MPS. Working with Cabinet and Caucus Offices and other key agencies within OPMC, PIMEU will provide the secretariat support to the Cluster Groups¹ to ensure there is comprehensive, cohesive and coordination of sectoral and cross sectoral program and project activities.

The SIDCC Government is confident that under its current leadership and with the support of the Coalition Parties it will deliver against its policy objectives. To effectively deliver its policy objectives the SIDCC Government has established a new management and oversight framework that will ensure effective coordination and implementation. The framework involves the creation of a “Core Ministerial Coordinating Committee (CMCC)” based in the OPMC and comprising of selected Ministers who will provide the needed political leadership in the implementation of the

¹ (1). Fundamental Reform, (2). Productive Sector – Sectoral Reform, (3). Resource Sector – Sectoral Reform and (4). Social Sector – Sectoral Reform.

Government development program. This strategic approach will ensure the political government as it should; taking the helm and the needed commanding role in making sure its priority policies are implemented appropriately and timely by designated government agencies and or their quasi agencies.

Finally, the SIDCC Government values the participation of all stakeholders in the translation of its Statement of Policy into policy translation strategy. Together as a team we can bring change in the lives of all persons in the country.

God Bless Solomon Islands

Prime Minister
